Approve to award the Riverside Drive Roadway Mill and Overlay Project, a partially-budgeted item funded by the Highway User Revenue Funds (HURF) – Public Works

County Administrator Drake explained that the amount of the bid received for the Riverside Drive Roadway Mill and Overlay Project, a partially budgeted item funded by the Highway User Revenue Funds (HURF), was at \$1.8 million, approved at a previous meeting with instructions to negotiate details of the contract. He explained that the biggest challenge for the County was finding the amount; which was substantially more than was budgeted. He added that he asked the Finance Director to do a cash-flow analysis expending this amount.

Finance Director Krukemyer went through the model, explaining the cash flow throughout the year, which the County greatly depended on. He stated that if the County had to dip into their line of credit, there would be interest on that amount that would have to be paid. He explained that the months of July through September were light cash flow months as taxes are not yet being collected. He added that, without the project there would be a positive cash flow of \$855,593.91.

Discussion ensued at length noting that the highway project needed to be done and the desire was to have it included in the budget of the following year instead.

Chairman Minor reminded the public that the County was in much better shape, but it was not yet where it wanted to be, and the County has to watch how it spends its revenues; however, he added that, at some point, this road needed to be addressed within the next year.

Supervisor Wilson stated that it needed to be understood that, by close monitoring, the County is financially functional, but it did not mean that the county was “fiscally stable” in the long term; it would take “a couple of years work to get there”, and the discussion of cash flow would still be something that would happen for a while longer. He added that other roads also need attention and it will be a “balancing act” to get that done.

County Administrator Drake stated that he had advised with the County’s legal counsel and found that the bid can be awarded and postponed to whatever date it chooses; however, it would be expected that the costs would change.

He added that there are other roads that he felt that actually needed more attention, sooner than the Riverside Drive project; however, he would leave that to the Board and the topic could be further discussed at a later date. He stated that the County was not in the position to take out two million in cash, and he felt there were other ways to extend the life of Riverside Drive until the County was in a better cash position.

Supervisor Irwin concurred, stating that she would like to see what the figure would be to handle the Riverside Drive “in house”.

Supervisor Wilson stated that he felt the County could not take that amount out of the budget at this time and needed to “take a hard look at a five-year payment plan” which should be in place going forward.

Chairman Minor expressed that he still advocated to move this project forward in the next budget year, confirming that the amount of HURF funds exceeded the amount to repair it.

Chairman Minor stated that action on the item died for lack of a motion.

He further noted that this firm currently represents the County on the “companion” case.

SUPERVISOR WILSON MOVED to approve appointment of the law firm of Helm, Livesay & Worthington, Ltd., Tempe, AZ, to represent the County in Arizona Tax Court case no. TX2018-001118, Quartzsite Apartments II LP; low-income residential apartments. Motion seconded by Supervisor Irwin, passed unanimously, including the vote by Chairman Minor.
