**Agenda and Minutes software demonstration by Granicus Technology**

Chavin Muniz, Account Executive, representing Granicus, gave a power point presentation of their software specializing in products designed for municipalities.

He explained that since 1999, Granicus has worked in over 4000 municipalities, identifying areas to save money and inefficiencies. He added that no other company had their combination of products and services built for government, serving 30 municipalities in Arizona. He added that Granicus works with the Arizona legislative government for their web streaming.

He gave a brief review of what they offer; demonstrating the Peak Agenda Management software, a paperless agenda application, video capabilities, livestreaming, and features that would also benefit the Board members individually.

He gave information relating to the initial investment amounts; noting a promotion if purchase on or before June 29, 2018.

Supervisor Wilson asked if Mohave County was one of their clients.

Mr. Muniz stated that he would put together a list of their clients and commented that Granicus was on State Contract.
